RINASCENTIA

FOREVER YOUNG

A safer, cheaper, and milder alternative to botox

RRP \$145

With added Sea Kelp Bioferment Lactobacillus, and other active ingredients, especially suitable for mature skin to increase elasticity, giving a younger, softer and more velvety complexion.

As we get older we have an increase in dryness, a reduction in skin thickness and elasticity, changes in surface roughness and microrelief, and an accentuation of aging signs like wrinkles age spots and dull skin. Exopolysaccharide (EPS), is a marine ingredient sourced from Halomonas eurihalina, a microorganism found in a specific saline habitat in the Costa Blanca, Spain, that helps rejuvenate mature skin by enhancing the direct communication among keratinocytes, and between keratinocytes and fibroblasts, and the signaling exchange between dermal and epidermal cells.

How to apply: After cleansing spot-apply to areas where a reduction of the degree of existing facial wrinkles and a softer, more velvety complexion are desired.

Full ingredients list: Aloe Barbadensis Leaf Juice (Aloe Vera), Sodium Hyaluronate, Rosa Damascena (Rose) Flower Distillate, Lactobacillus/Nereocystis Luetkeana Ferment Filtrate, (Fermented Sea Kelp), Citrus Aurantium Dulcis (Orange) Callus Culture Extract, Acetyl Octapeptide-3, Vegetable Glycerine, Pseudoaltermonas Ferment Salicylic Acid, Sodium Salicylate, Hydroxypropyltrimonium Honey (Honeyquat), Leuconostoc/Radish Root Ferment Filtrate.

Hero ingredients:

- **Snap-8** – A safer, cheaper, and milder alternative to Botulinum Toxin. It reduces the depth of wrinkles on the face caused by the contraction of muscles of facial expression, especially in the forehead and around the eyes.
- **Sea Kelp Bioferment Lactobacillus** – A natural kelp extract that has been derived by fermentation of Sea Kelp using Lactobacillus. A rich antioxidant, reduces redness and irritation, moisturising. Lactobacillus plantarum was found to reduce erythema.
- **Honeyquat PF (Paraben Free)** – A naturally derived conditioning agent made from honey with excellent moisture binding capabilities.
- **Citrustrum** – Made from orange stem cells and works by re-organising the inner structure of the skin for a younger appearance, increases elasticity, with a softer and more velvety complexion giving a younger and smoother complexion.
- **Cellynkage Marine** - Halomonas eurihalina, a microorganism found in a salt marsh in Spain, helps rejuvenate mature skin by improving communication between cells, increasing collagen density and improving the extracellular matrix.
- **Hyaluronic Acid** – Holds up to 1,000 times its weight in water. It benefits tissue repair and protection, penetrating into the dermis and boosting the elasticity and hydration of the skin. The protective barrier on the skin locks in moisture giving the skin a youthful appearance.

RINASCENTIA

ALL NATURAL. NO FILLERS, TOXINS OR NASTIES.

COLLECTIVE
PSYCHOLOGY

NEWSLETTER

WE HAVE BIG NEWS WE ARE MOVING!

At Berry Collective Psychology we have been working hard to meet the growing mental health needs of our community. We have some exciting announcements to share with you!

WE ARE MOVING TO A LARGER EXCLUSIVE PREMISES

From 1st Feb 2021 we will be at
1691 Pittwater Road, Mona Vale.

Please change your records to reflect this, particularly on all referrals and Mental Health Care Plans. You can continue to refer your clients via our existing email address, fax number, and phone number.

TELEHEALTH

We are now masters at Telehealth! We will continue to move seamlessly between face-to-face and telehealth services as needed throughout 2021. For our clients who really need face-to-face appointments, we will do our best to always provide them with this service while keeping our community safe.

OUR TEAM HAS GROWN AND DIVERSIFIED

We are very excited to welcome another five fabulous professionals to our team.

Molly Millington
Mental Health Social Worker

Age range: Children over 10 years, adolescents, adults.
Presentations: Anxiety, trauma, stress, work-life balance, school-related issues, attachment issues, perinatal mental health, domestic violence.
Approach: Welcoming. Genuine. Honest. Empathetic. Caring. Goal-focused.

Mel Amon
Clinical Psychology Registrar

Age range: Children over 9 years, adolescents, young adults.
Presentations: Mood disorders, anxiety, stress, challenging behaviour, life transitions, self-esteem.
Approach: Warm. Empathetic. Honest. Collaborative. Real.

Luke Jesionkowski
Psychotherapist

Age range: Children over 14 years, adolescents, adults.
Presentations: Trauma, addictions, depression, anxiety, eating disorders, relational & attachment disorders.
Approach: Authentic. Nurturing. Warm. Creative. Spiritual. Empowering.

Lorraine Tan
Provisional Clinical Neuropsychologist

Age range: Children, adolescents, adults, older adults.
Presentations: ADHD, learning difficulties, intellectual disabilities, dementia diagnosis.
Services: Cognitive Assessments.
Approach: Encouraging. Collaborative. Realistic. Goal-oriented.

Danielle Brender
Practice Manager

Danielle is an experienced practice manager who has recently been working in the field of paediatric speech pathology. She will be with us Monday to Friday and will be supporting our growing team to be the best we can be for our clients.

The 2015 GIANTS Business Lunch

FRIDAY 7 AUGUST

We are delighted to invite you to join us for the 2015 GIANTS Business Lunch.

Hear from Senior Coach Leon Cameron, PM Capital GIANTS Academy Director John Quinn and ruckman Shane Mumford on the topic of "What's Changed - Managing High Performance athletes for today & the future trends."

This is a unique opportunity for our corporate clients to mix business with football, entertain guests and network with like-minded individuals whilst hearing from special guest speakers from the GIANTS.

12:30pm for a 1:00pm start
PwC
Level 10, 201 Sussex St, Sydney 2000

TICKET \$115 PER PERSON :: TABLE OF 8 \$840 (INC. GST)
RSVP Friday 31 July
To book contact Madeline.Berbuesse@gwsgiants.com.au or telephone 02 8736 4200

Pioneering the development of novel immunotherapies for patients with blood cancers and B-cell disorders

HaemaLogiX

Newsletter June 2023

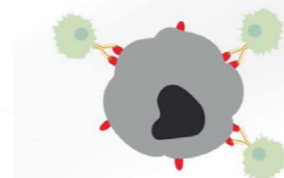

How KMA.CAR T works

Our KMA.CAR-T is an immunotherapy where a patient's own T cells are genetically modified to recognise kappa myeloma antigen on the surface of myeloma cells, and kill those cells.

Learn more about how our immunotherapies work

In this video we explain in simple terms how our lead candidate, the monoclonal antibody KappaMab, works.

KappaMab binds to KMA, inducing the recruitment of natural killer cells, an immune cell in the human body that attaches to the antibody and destroys the malignant plasma cells.

Watch A patient's perspective

Karen Wilde was diagnosed with multiple myeloma in May 2012. In this video, Karen tells her story, including the events that led to her diagnosis, her experience with existing treatments and what it's like to be on clinical trials.

"The haematologist said to me: If someone like you can get myeloma it shows the indiscriminate nature of the disease."
